

## Autumn 2 Maths – Geometry (Shape)

In maths we have been learning about 2-D and 3-D shapes; their properties (such as number of faces, edges and vertices), being able to draw them accurately, how to sort them, how 2-D and 3-D shapes are linked and recognising these shapes in everyday/real-life objects. What 2-D and 3-D shapes can your child spot at home?
