

In Geography, we've been comparing our countryside village of Ravenstone to the seaside town of Whitby. We made posters to show some of the common and different features of both places.

We compared their human (man-made) and physical (naturally occurring) features as well as their locations: land-locked Leicestershire and coastal North Yorkshire.

Village: a group of houses and associated buildings, larger than a hamlet and smaller than a town, situated in a rural area

Town: a built-up area with defined boundaries and local government, that is larger than a village and generally smaller than a city

How many features do you recognise?
