

Den Making

In our English lessons we are learning how to write instructions. To help us to understand the shape and key features of instructions, we looked at a good example which was 'How to Make a Great Den'. We thought it would be fun to follow these instructions to make a den in our Forest School session.

Bird Feeders

After completing some research about garden birds and what they should and shouldn't eat, we had a go at making some bird feeders to hang in our gardens. We are looking forward to writing a set of instructions for children in our younger classes to follow so that they can make a bird feeder too!
