

Day 21 - Monday 4th May 2020

Hi FAB 5's! I hope you had a good weekend. It's VE day on Friday so listen out for news about it during the week. We'll be doing work on it on Thursday. Here are your tasks and challenges for today. **Remain a proud learner!**

Subject	Task	
Maths	Today I'd like you to look at Week 2 (not the Summer Term yet). Lesson 1 is all about rounding decimals . Watch the video carefully and good luck with the activities. The answers are there as before. https://whiterosemaths.com/homelearning/year-5/	
English	Here is a list of words from the spelling assessment you did at the end of term. They are the ones that were spelt incorrectly most frequently. Even if you can spell them, write them in whatever way you like to really reinforce your knowledge and understanding of them. Write them in sentences too. Technique, absolutely, disappoint, happiness, furious, reliable, delicious. Read to yourself for at least 15 minutes. Read to an adult for 10 minutes and discuss what you have read. Remember to ask your adult questions too!	
ILP - Beast Creator	This is our new ILP and it is all about minibeasts. Today, your task is to do a minibeast hunt around your garden. How many different types can you find? Where are they? What do they look like? How many of each do you find? Make a table or chart in your book and take photos or draw pictures too if you can.	
Physical	Choose another challenge from the Isolation Games. I've added Week 3 on to the Home Learning page so check it out. Enjoy!	Remember the Joe Wicks 9.00am School Workout on YouTube. Everyone's doing it!
Challenge	Multiplication challenge - beat your score or time!	

Good luck, enjoy and stay safe!
