

### Day 38 - Thursday 4<sup>th</sup> June 2020

Hi FAB 5s! I hope you didn't get too wet yesterday; it was probably one of the best days so far for staying in and doing your work! Here are the tasks and challenges for today so try your best and enjoy. **Remain a proud learner!**

Subject	Task	
Maths	Summer term, week 4 (w/c 11 <sup>th</sup> May) <b>Lesson 4 - Compare and order fractions less than one.</b> <a href="https://whiterosemaths.com/homelearning/year-5/">https://whiterosemaths.com/homelearning/year-5/</a> Watch the video carefully and then have a go at the attached activities. Remember to mark them.	
English	Spelling. Make a list of as many time-related words as you can. For example, <i>always, before, during, meanwhile, afterwards, eventually, frequently, occasionally</i> . Use a dictionary to check the spelling and find the meaning of any you don't already know. Then, choose some of them to write in sentences. For example - <i>Eventually</i> , Billy was able to tie his shoelaces; <i>During</i> the break, I made a cup of tea. You should be able to think of at least 10 words but challenge yourself to find as many as you can.	
ILP - Time Traveller	Time for more creativity, using a famous artist as your inspiration. Watch the attached PowerPoint about the surrealist painter, Salvador Dali. Then look carefully at the attached picture of his most famous painting, 'Persistence of Memory'. I'd like you to have a go at creating and sketching your own clock picture in the style of Dali. It can be anything you like (an animal, a toy, a household or garden object, etc) but it must have at least one clock (analogue or digital) on it. I've also attached pictures that other children have drawn; it's not easy to pick out the detail on all of them but they should help you to get started. Please send me a picture of your final masterpieces; I'm sure they'll be amazing!	
Physical	Go for a walk, run or bike ride. Time yourself and see how long it takes to complete a favourite route. Write down your time so you can see if you can beat it the next time you go.	Join in with the <b>Joe Wicks 9.00am School Workout on YouTube.</b>
Challenge	Number bonds - choose the ones you still find tricky to remember quickly.	

Good luck, enjoy and stay safe!
