

Day 28 - Thursday 14th May 2020

Hi FAB 5s! I hope you had fun designing your bug hotel. Fingers crossed the weather will stay nice so you can build it today. Here are all your tasks so read carefully and do them as neatly and well as you can. **Remain a proud learner!**

Subject	Task	
Maths	Summer Term, Week 1, Lesson 4 - adding decimals, crossing the whole . Watch the video carefully because this is something that quite a few of you still find tricky. https://whiterosemaths.com/homelearning/year-5/	
English	Read through and edit what you've written so far. Check spelling and punctuation and look to see if you can improve any vocabulary choices. Then, carry on with the next part of your story, all the way to the end. How is the problem solved? Make sure that you include some direct speech, especially if you haven't already. Please focus on writing a good ending too, not something that's over in two lines. Make it a worthy and interesting end to what is hopefully a great story about your super minibeast.	
ILP - Beast Creator	Today you are going to make your bug hotel. Hopefully, when you drew it yesterday, you included materials that you know you have in your garden. If not, you'll have to build one with the things you can find that are similar to your drawing. Think carefully about where you build it so it will be safe and secure in all weathers. I'd love to see it so take a picture and send it to me please. Have fun!	
Physical	Go for a walk, run or bike ride. Make sure that you raise your heart rate to keep your fitness up. Stay safe too.	Join in with the Joe Wicks 9.00am School Workout on YouTube.
Challenge	Here's something naughty but nice. How many different types of chocolate bar can you name?! Yum!	

Good luck, enjoy and stay safe!
