

Monster Models

Inspired by the work of Michelle Reader

Michelle Reader uses recycled materials and found objects to make sculptures. Her sculptures are figurative, so they look like real things, such as a jaguar. She sometimes uses mechanical elements, such as pieces of toys or clocks.

This life-size sculpture of a postman is made from junk mail. Reader used 800 pieces of post to create the sculpture, to show how much paper is wasted on junk mail.

To make this jaguar, Reader used lots of unusual materials, such as satellite dishes, remote controls, metal brackets, cables, nuts and bolts
