

## Instructions

In Ash Class, we have been learning how to PROPERLY wash our hands (we noticed some steps were being missed from a few children!). Having listened to all the steps, we took photos of the children washing their hands and then tasked them with sequencing the pictures. The children used time adverbials to make the order clear and most identified the 'bossy' verbs in each step. Some children then wrote their instructions out in neat, using their plans to help them.
