

Maths

In Cedar Class we practise our times tables a lot!! Since the beginning of the year we have completed a times table challenge a few times a week where the children have 3 minutes to answer a set of times table questions. The children all started at the Bronze level, but all have worked their way through the challenges! Since Christmas, all children have upped their games and so many are rocketing through the challenges. Some have even managed to answer 125 questions in 3 minutes!! We are so proud of their hard work and persistence.
