

Black History Month - Alma Thomas

To celebrate Black History Month, Ash Class have been learning about the inspiring artist Alma Thomas, discovering more about her life and her vibrant, colourful artwork. Inspired by her distinctive style, the children explored their own creativity by experimenting with sticks and paint to create repeated prints, patterns and bursts of colour. Some children also took on the challenge of recreating Alma Thomas's famous 'Starry Night and the Astronauts' artwork, exploring its imaginative theme and colourful shapes. The children thoroughly enjoyed experimenting with different techniques, developing their artistic skills and creating their own unique masterpieces inspired by this remarkable artist.
