

Day 22 - Tuesday 5<sup>th</sup> May 2020

Hi FAB 5's! Happy Tuesday. I hope you had a good day yesterday and are ready for some more tasks and challenges today. Here they are so good luck and enjoy. **Remain a proud learner!**

Subject	Task	
Maths	<b>Lesson 2</b> from week 2: <b>Order and compare decimals.</b> <a href="https://whiterosemaths.com/homelearning/year-5/">https://whiterosemaths.com/homelearning/year-5/</a>	
English	Make a glossary of 10 -12 words you think are key to our ILP on minibeasts. For example, invertebrate, pincer, antennae, pupa. Arrange them in alphabetical order please. Make sure that <b>ALL</b> your spelling is correct and your handwriting is neat and accurate too. Read to yourself for at least 15 minutes. Read to an adult for 10 minutes and discuss what you have read.	
IPL - Beast Creator	Yesterday you looked for minibeasts in your back garden and found ones that are native to this country. Today's task is to investigate minibeasts that are <b>only found</b> in other countries or continents of the world. Try to find these facts as well as any others that interest you: Which is the deadliest minibeast? The most common? The biggest? The most colourful? The most useful? Which ones are you glad you didn't find in your garden?! I'm not sure that I'll want to find out what you discover!!!	
Physical	Make your own assault course. Include running, jumping, weaving through obstacles, climbing under/over things, aiming at targets, etc. How quickly and successfully can you complete it? Have fun!	Join in with the Joe Wicks 9.00am School Workout on YouTube. Everyone's doing it!
Challenge	Number bond work to 50 or 100. Beat your time or score!	

Good luck, enjoy and stay safe!
