comprehension

tension

corrosion

supervision

conclusion

persuasion

Practise the words and write in a sentence.

Reading

Read your book for at least 20 minutes.

Singing - optional!

Put on your favourite music, find the lyrics and sing your heart out!

English - Thursday and Friday

Use the research you did on Monday and Tuesday to write a biography of Jacques Cousteau. If you can, word process it using Word or Publisher. Use different sub-headings for different parts of his life e.g. childhood, achievements, career, family life...

Here is your success criteria:

Title

Introduction

Paragraphs with sub-headings

Time adverbials e.g. In 1943, The following year, After that, etc...

Conclusion - why he will be remembered

Pictures - draw or cut and paste into your document.

Please edit so your spelling, punctuation and grammar is accurate.

Maths

Print off the Key Skills sheet 15 and fill in then mark. If you can't print, then just write the answers in your book.

Do your usual stage.

Science

Use the research you did yesterday on adaptations.

Make an information poster (you can use one plain page of your book or word process).

Your title is Marine Adaptations

Draw a marine animal and then describe how it is adapted to its marine environment e.g. fish have gills to breathe underwater.

Do at least 4 different animals.

Interesting animals include whales, sharks, fish (especially the anglerfish), turtles, jellyfish ...
