

Day 23 - Wednesday 6th May 2020

Hi FAB 5s! I hope that you're all well, and still on fire with your work. Here are the tasks and challenges for today so read them carefully and try your best with each one. **Remain a proud learner!**

Subject	Task	
Maths	Lesson 3 - Understand Percentages https://whiterosemaths.com/homelearning/year-5/	
English	Today you're going to be reading for information and making notes so you can complete the ILP activity below. You need to find facts about a range of different minibeasts, including the ones you found in your garden on Monday and the ones you learnt about yesterday. Use reference books and the internet to help find the most interesting facts that you can. Make sure that you copy the words and facts correctly - you don't want to be caught out with the wrong information. https://www.theschoolrun.com/homework-help/minibeasts is an interesting place to look at and it will lead you to others too.	
ILP - Beast Creator	Using the information and facts you found yesterday and in your English work earlier, make a set of 'Minibeast Top Trump' cards. You can download and cut out pictures or draw them if you like. Once you've made your cards, play the game with members of your family or, if you can, your friends using the media platforms you have. We can also play them 'when' we get back to school.	
Physical	Choose an activity from the 'Isolation Games'. Pick a new one or one you like.	Join in with the Joe Wicks 9.00am School Workout on YouTube. Everyone's doing it!
Challenge	How many things can you spot in your garden that begin with any of the letters in your name?	

Good luck, enjoy and stay safe!
