

Retrieval Games

We have enjoyed playing retrieval games this week Retrieval games help us to help us cement knowledge into our long-term memory.

Retrieval Races

In teams the children raced to find as many adjectives or nouns as possible and bring them back to their team. They could only collect one word at a time. The team with the most adjectives when the time was up was the winner!

Retrieval Relay

In teams the children raced to write as many 'kn' or 'gn' words on the board as possible. They could only write one word at a time before passing their pen to the next team member. The team with the most words spelt correct were the winners!
