

Day 25 - Monday 11th May 2020

Hi FAB 5s! I hope that you enjoyed your VE Day celebrations and then had a good weekend too. Time to get another week up and running so here are your tasks and challenges for today! Read them carefully and try your best with each one. **Remain a proud learner!**

Subject	Task	
Maths	This week is revising calculations with decimals, starting with Summer Term, Week 1 - Adding decimals within 1 . Watch the video carefully to reinforce your knowledge and help with anything you may still find a little tricky. https://whiterosemaths.com/homelearning/year-5/	
English	1. Groovy Grammar 6. 2. Can you remember the tricky spelling words you chose from your reading diary? See if you can spell them all now ... without looking back at them first! Ask someone to test you on them, then write them in sentences that are different to last time. 3. Read to yourself for at least 15 minutes and to an adult for 10 minutes. Discuss as always.	
ILP - Beast Creator	Today, you're going to create your own super minibeast! It's going to be a combination of some of the minibeasts you learned about last week and it's going to have a super power as well. (What that is, is up to you but in English this week you will be writing a story about it so think carefully what the super power would be useful for.) Draw a diagram of your minibeast, labelling each feature and detailing what it's used for. Give it a name too, perhaps a combination of other minibeasts or a completely new one.	
Physical	Try one of the new challenges from week 4 of the 'Isolation Games' activities.	Join in with the Joe Wicks 9.00am School Workout on YouTube.
Challenge	Multiplication challenge. I've put them onto the Home Learning page if you need a new one.	

Good luck, enjoy and stay safe!
